

## Innovations Toronto 2016

We hosted a conference on cutting edge cancer research at the Vaughan Estates of Sunnybrook in Toronto at the end of 2016. The conference was comprised of two meetings: the first meeting, "Innovations in Radiation-Engineered Therapy," was held on Nov. 14 and 15, and the second, "Innovations in Cancer Therapy and Response Monitoring," on Nov. 16 and 17.

[Read more about the conference here.](#)
